

SCPS CONSULTING LTD Anti-Discrimination Statement

SCPS Consulting are committed to anti-discrimination practices. We value difference and diversity and do not discriminate on the grounds of age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex, or sexual orientation.

Sasha Cain, Director of SCPS Consulting is a Registered Psychologist and as such adheres to the HCPC Standards of Proficiency for Health Psychologists and seeks to develop anti-discriminatory knowledge and practice through ongoing professional development activities.

SCPS Consulting recognises that systemic discrimination means that we are all subject to, and part of, the discriminatory forces that affect our society. We make space to recognise when this may arise in the course of daily work and to address and repair areas of concern. Please contact us to raise any concerns and to suggest new ways of working that would be anti-discriminatory by emailing info@scpsconsulting.com.
